

## WHY TACTICAL?

**TACTICAL** is comprehensive system designed for Security Agencies to change and accelerate its manual process and to increase the competency and accuracy from Human Resources, Admin, Operations which are integrated to accounting system, **ARIES**. The benefits when you used **TACTICAL** are the following:

### 1. Speed

Processing of payroll transactions can be carried out far more quickly than any manual processing.

Firearms Inventory, Bank Remittance, Cash and GCash Report

### 2. Automatic document production

Fast and accurate source documents and reports such as Service Invoice, SOA, Pay Slip, Payroll Register, Government Contribution Report, Duty Detail Order (DDO), Monthly Disposition Report (MDR), Inspection Report and Incident Report are done automatically.

### 7. EWT & VAT computation

Computation and processing for VAT and EWT are automatically done by the system. VAT and EWT reports can be generated in the system.

### 3. Accuracy

There is less room for errors because the system automatically generate the Service Billing Process and MDR after payroll processing

### 8. Efficiency

Better use of resources and time; accurate and timely information can improve decision-making process and operations of the business.

### 4. Up-to-date information

During hiring process, applicant records are automatically updated and so employee records will always be up-to-date. Auto-updating also applies during renewal of DDO and generation of DDO Summary and MDR

### 9. Staff motivation

The system will require staff to be trained to use new skills, which can make them feel more motivated.

### 5. Availability of information

The data is instantly available and can be made available to different users with access to information in different locations at the same time.

### 10. Cost savings

By using TACTICAL, this can help you avoid penalty on late submission of MDR to SOSIA as DDO are up-to-date and accurate every month

### 6. Management information

Reports can be produced which will help management monitor and control the business, for example generation of Payroll Summary, Expiration of Licenses,

### 11. Reduce frustration

Management can be on top of their accounts and thus reduce stress levels associated with what is not known to them.

### 12. Compliance to government requirements

TACTICAL is compliant to SOSIA. It can generate requirement of SOSIA which is the MDR. It also generate the Government Contribution Report such as SSS, PHIC, HDMF and Withholding Tax Report on Compensation required by BIR
